

# int:net

Interoperability Network for  
the Energy Transition

# Final Conference

18<sup>th</sup> September 2025

Univ.-Prof. Antonello Monti

Fraunhofer FIT  
RWTH Aachen University

# Evolution of our grids

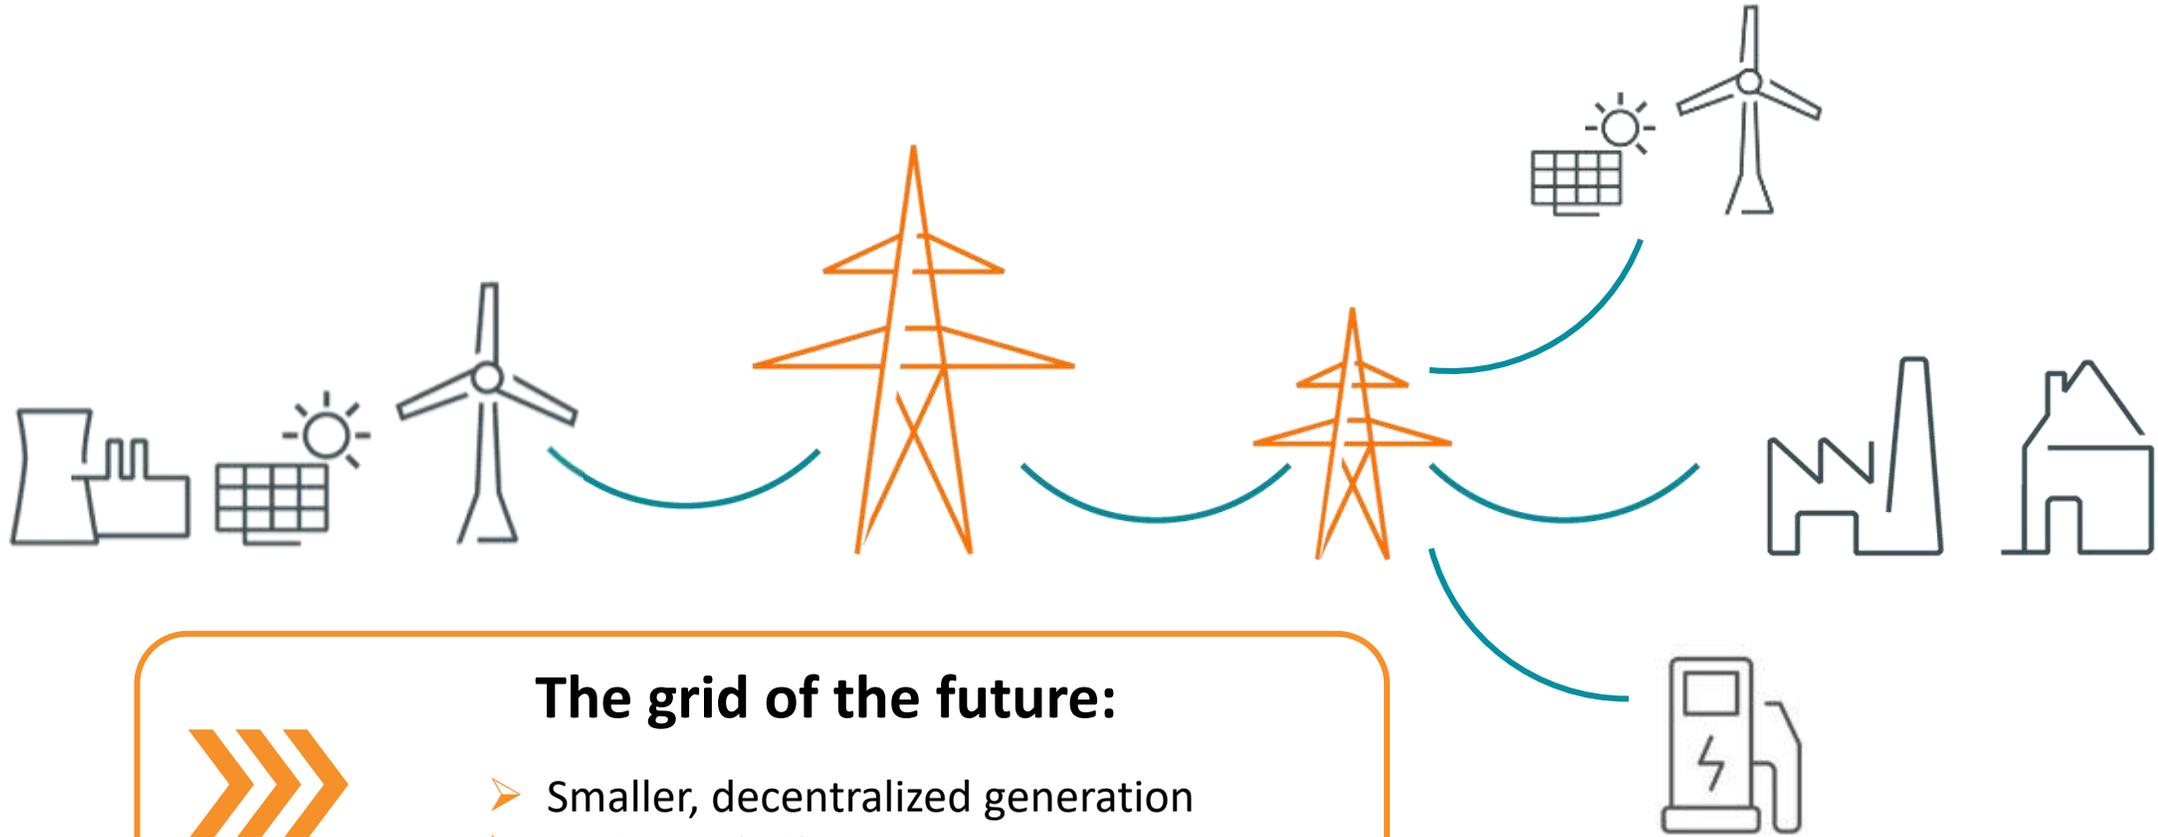

## The grid of the past:

- Large, centralized generation
- Passive, predictable consumption

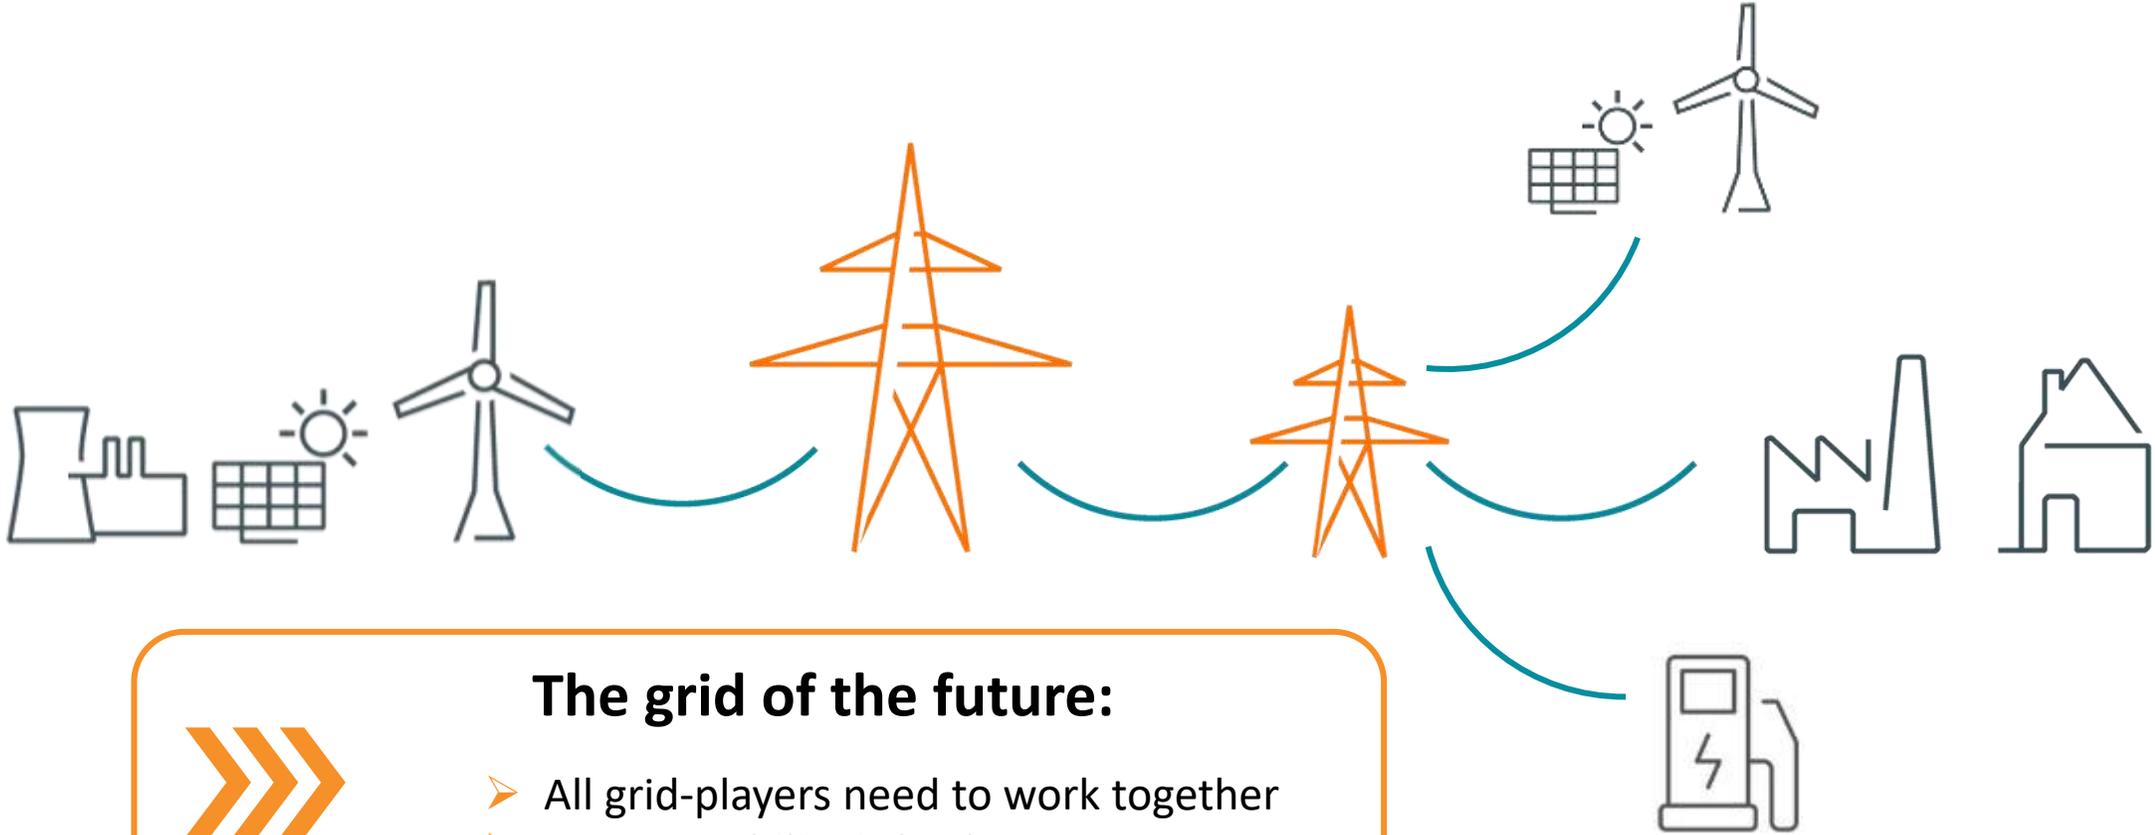

# Evolution of our grids

**▶▶▶▶ The grid of the future:**

- Smaller, decentralized generation
- Active, volatile prosumers

# Evolution of our grids

**➤➤➤ The grid of the future:**

- All grid-players need to work together
- Interoperability is key!

# Results of int:net

## Knowledge Base

- Initiatives & Use cases
- IOP Testing Procedures & facilities
- Standardization overview

## Tooling

- IOP Maturity Model EMINENT
- 6<sup>th</sup> SGAM-Layer concept
- Interoperability Compass
- Int:net project & people connector

## Community

- Website with resources
- Platform with forums
- Community events (e.g. Connectathon)
- Lunch Talk events

## Labeling

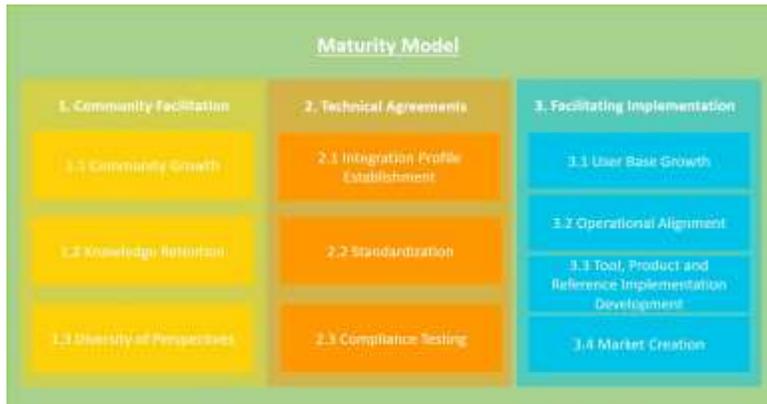

- Continuous Improvement Process
- IntMAS
- EU registered label: 

## EDSCP

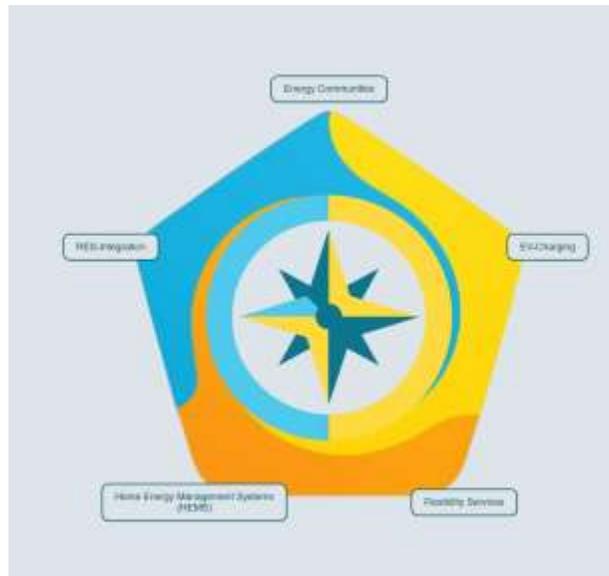

- Cooperation between Dataspace Projects
- Blueprints and whitepapers
- Use Case Definitions

# Exemplary Showcase

## EMINENT

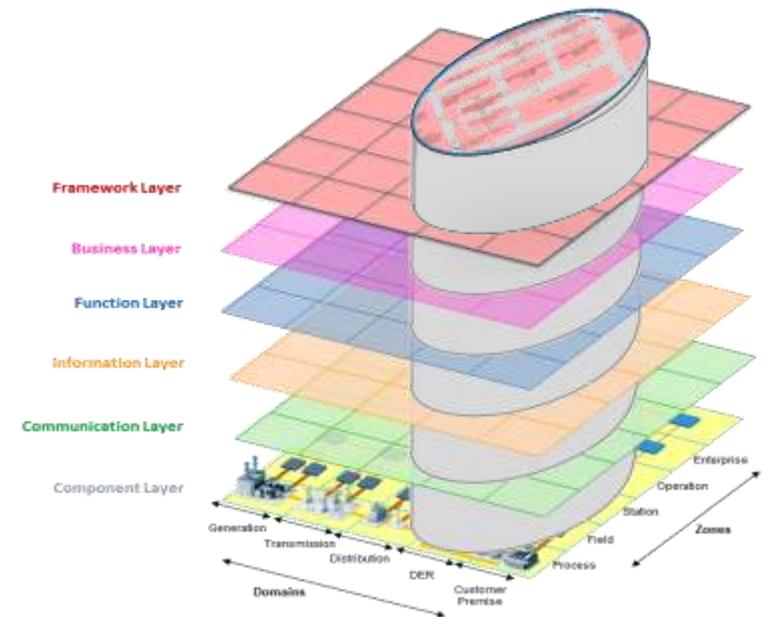

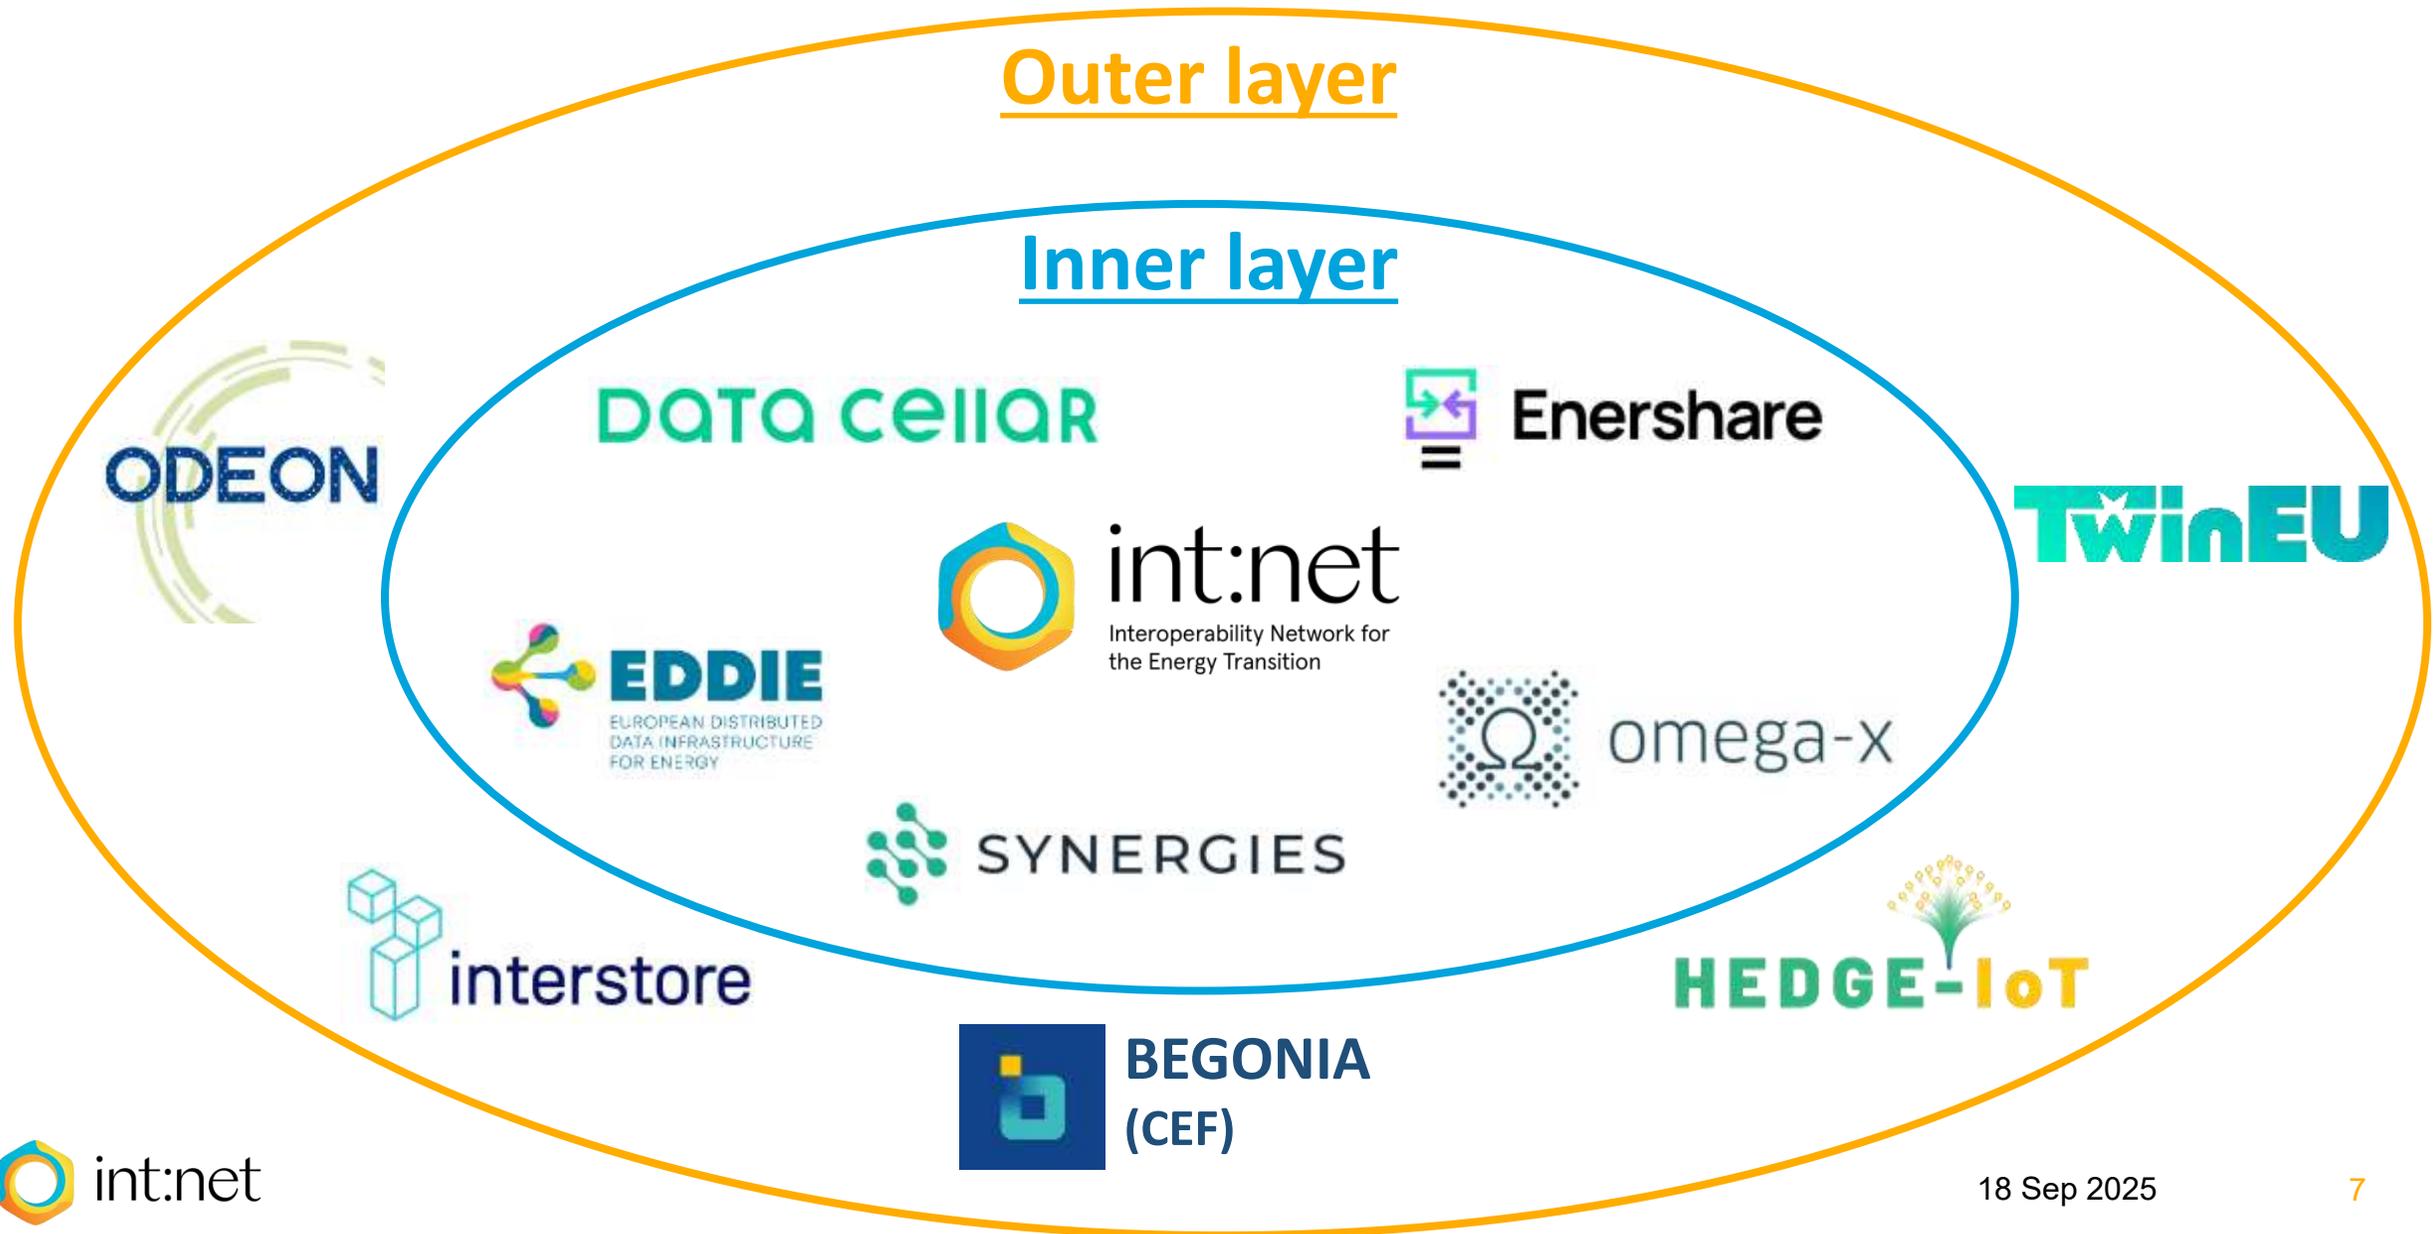

## IOP compass

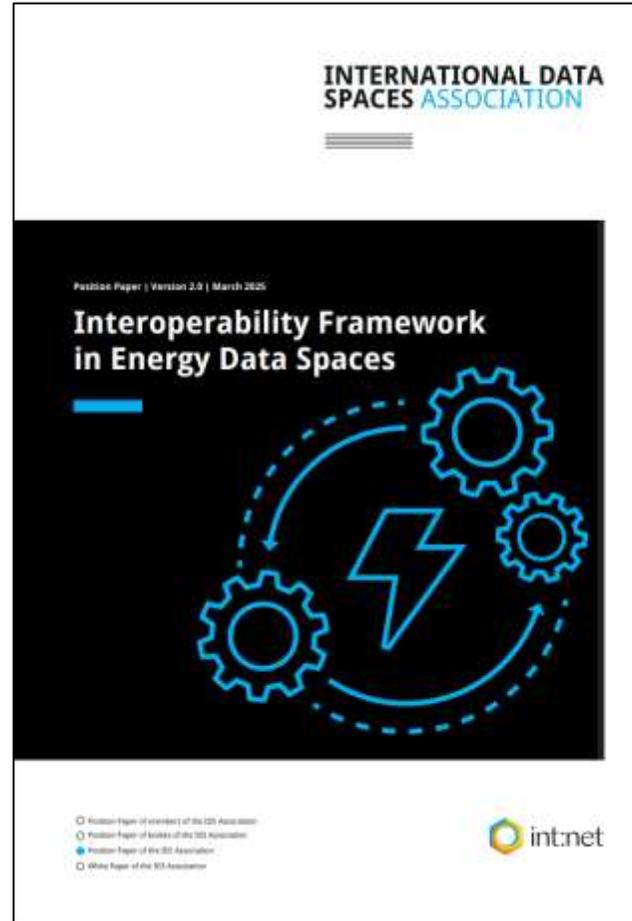

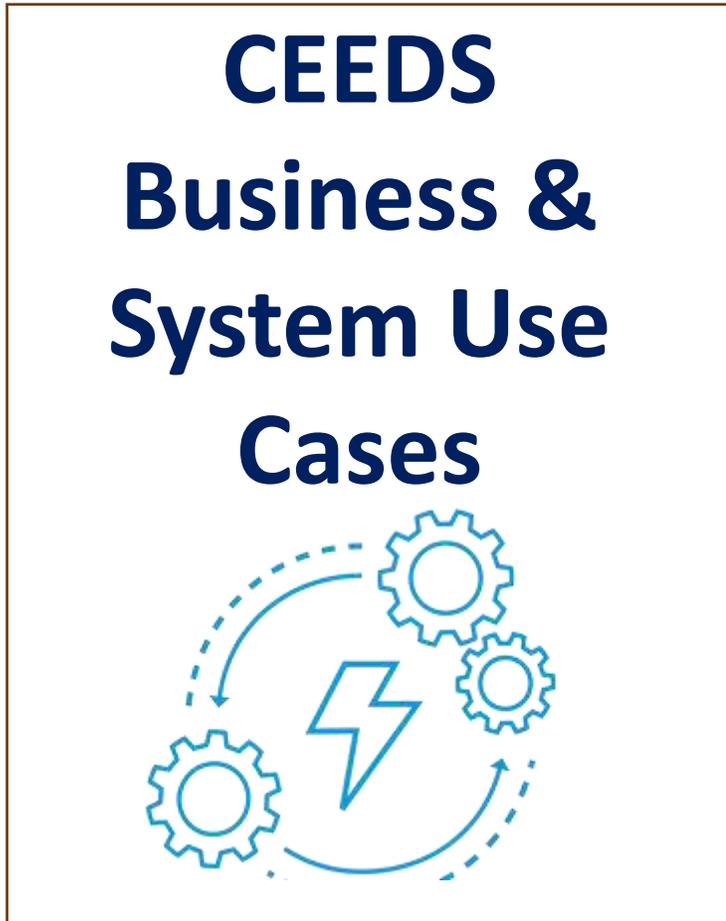

<https://sgaire.offis.de/iop-compass/>

## SGAM framework layer

## Cluster Activities
