

int:net

Interoperability Network for  
the Energy Transition

# Int:net Final Conference

The Making of int:net

18 September 2025

## Our Tasks

- *General communication and dissemination*
- *Organisation of capacity building and dissemination events*
- *Building a cross-sectoral network for interoperability*
- *Providing, moderating and operating a European interoperability network / ecosystem platform*
- *Starting establishment of a sustainable and self-sufficient, formal Interoperability Network for the Energy Transition*

# General communication and dissemination

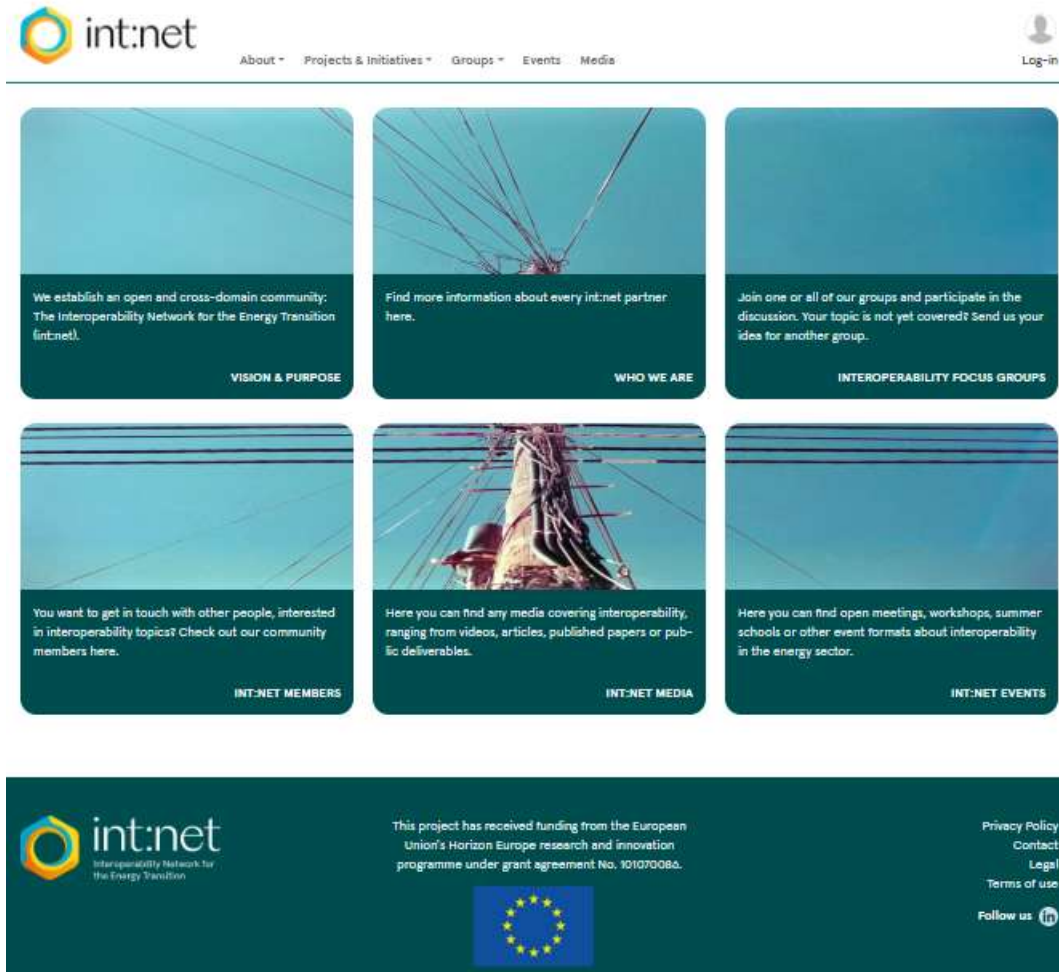

## Capacity building and dissemination events

14 talks 2024 - 2025

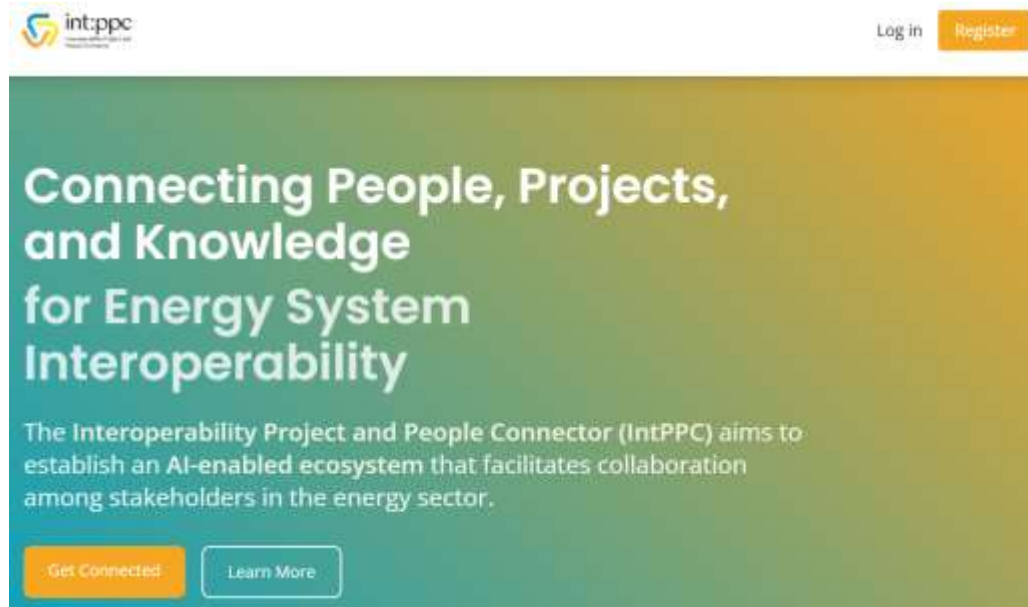

> 350 participants

# Building a cross-sectoral network for interoperability

- Open and cross-domain community
- More than 180 members
- Full access to focus groups, media repository with lunch talks etc.
- Interoperability Focus Groups (IFG)
  - IFG-1: "Interoperability Profiles in Data Spaces"
  - IFG-2: "Increasing Maturity in Interoperability"
  - IFG-3: "The Interoperability Regulatory Landscape"
  - IFG-4: "Interoperability Testing Approaches, Test Cases, and Test Facilities"
  - IFG-5: "Smart Grid related Use Cases and SGAM"

## ***European interoperability network / ecosystem platform: From int:net community to IntPPC***

### **AI-powered insights**

Smart expert matching and knowledge discovery

### **Expert Circles**

Focused collaboration spaces for innovation

### **Knowledge Hub**

Curated repository with persistent DOIs

### **IntMAS Assessment**

Evaluate and certify interoperability maturity

### **Who Benefits from IntPPC?**

- Researchers and Academia
- Service Providers
- Standards Bodies
- Technology Vendors
- Regulators and Policy
- Consumer Organizations

## ***Interoperability Network for the Energy Transition***

### **IntMAS approved – The Label for Interoperability Management in energy relevant organisations**

- ✓ Future-proof implementation of energy solutions
- ✓ Continuous improvement and cross-sector collaboration
- ✓ Trusted by partners and customers

### **Who is it for?**

Technology providers, system operators, test labs, associations and more.

### **How does it work?**

Guideline, templates, assessment tool, personal support and online certification

# Outputs

## Deliverables

- ✓ *D5.1 Updated plan for dissemination, exploitation and communication activities*
- ✓ *D5.2 Interim report on the status of the Interoperability Network for the Energy Transition*
- ✓ *D5.3 Final report on the status of the Interoperability Network for the Energy Transition and dissemination and communication activities due Oct 2025*
- ✓ *D5.4 Exploitation and long-term sustainability of IntNET due Oct 2025*

## Platforms

- ✓ *IntMAS Workspace and Register – <https://intmas.eu>*
- ✓ *Int:net Community – <https://community.intnet.eu>*
- ✓ *int:ppc – Interoperability Project and People Connector – <https://intppc.eu/>*
